Behaviors

Overview of Project EMBRACE

• Our Service

1. Outreach & Mass Program
2. Individual Support & Pre-release service
3. Rehabilitation Strengthening Program
4. Career and Life Training Program
5. Family Reconciliation Program

Overview of Project EMBRACE

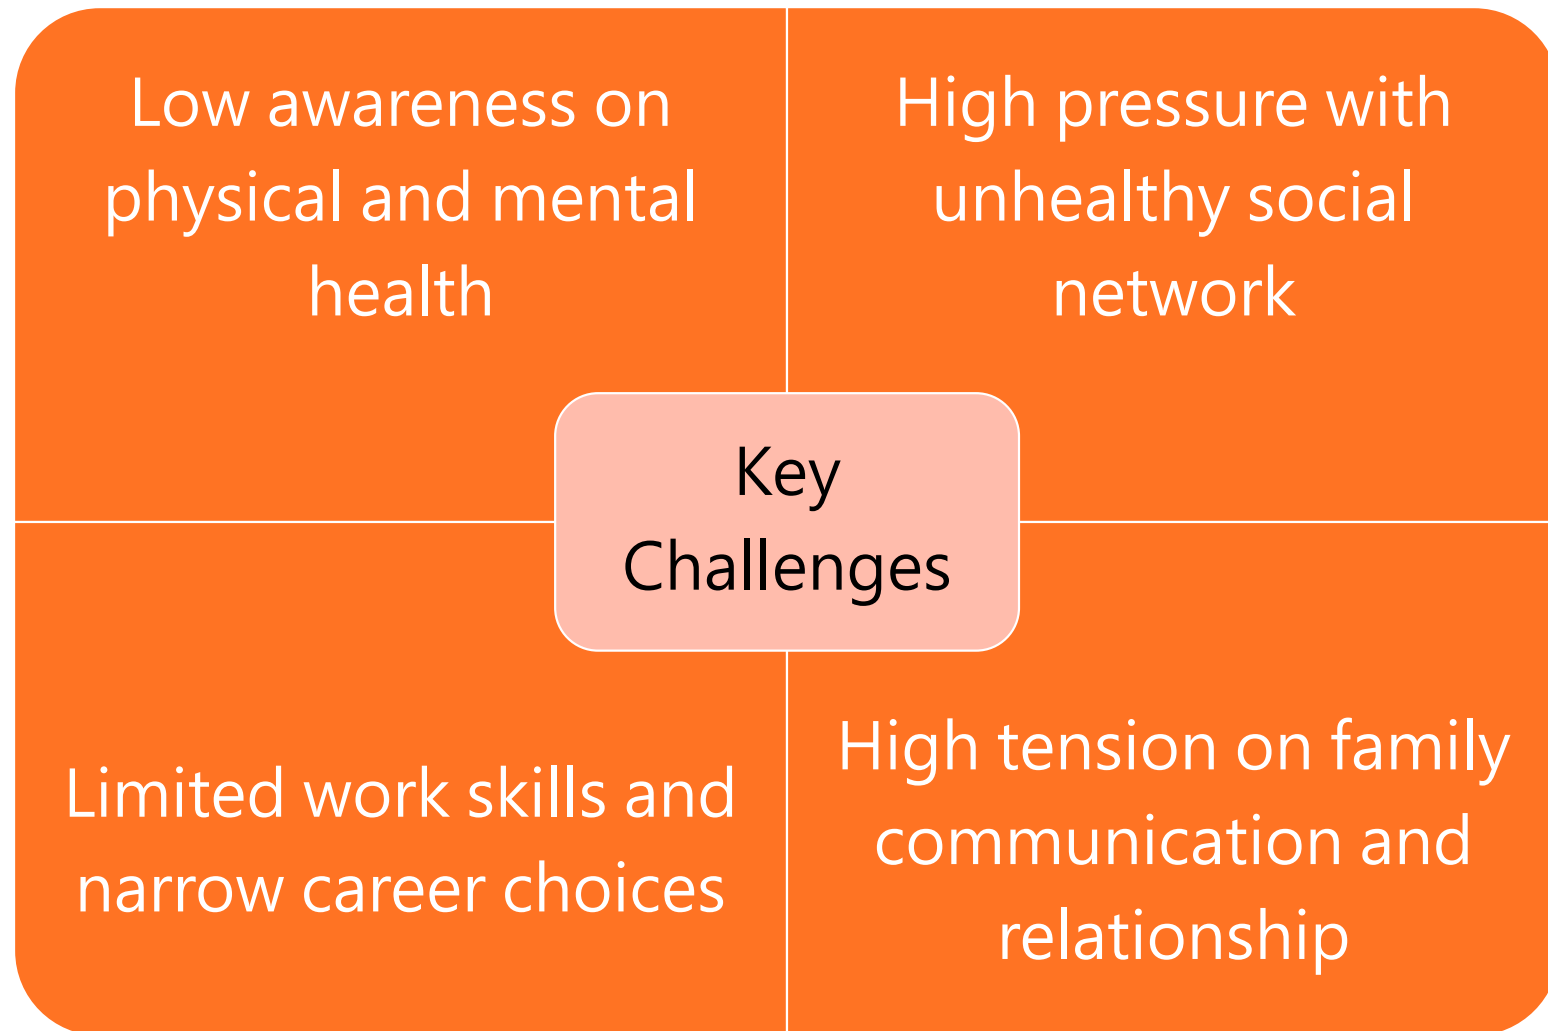

- Service Outcome

1. 82.65% of EM drug abusers reduce drug use or stop using drugs after completion of treatment (n=219)
2. 71.3% of EM drug abusers show improvement in motivation to quit drugs (n=223)
3. 66% of EM drug abusers showed improvement in their general well-being (n=103)
4. 73% of EM drug abusers showed improvement on employment readiness (n=122)
5. 83.6% of EM drug abusers showed improvement on their capacity to support the drug abusing family member (n=140)

Key Challenges

Service Interventions & effectiveness

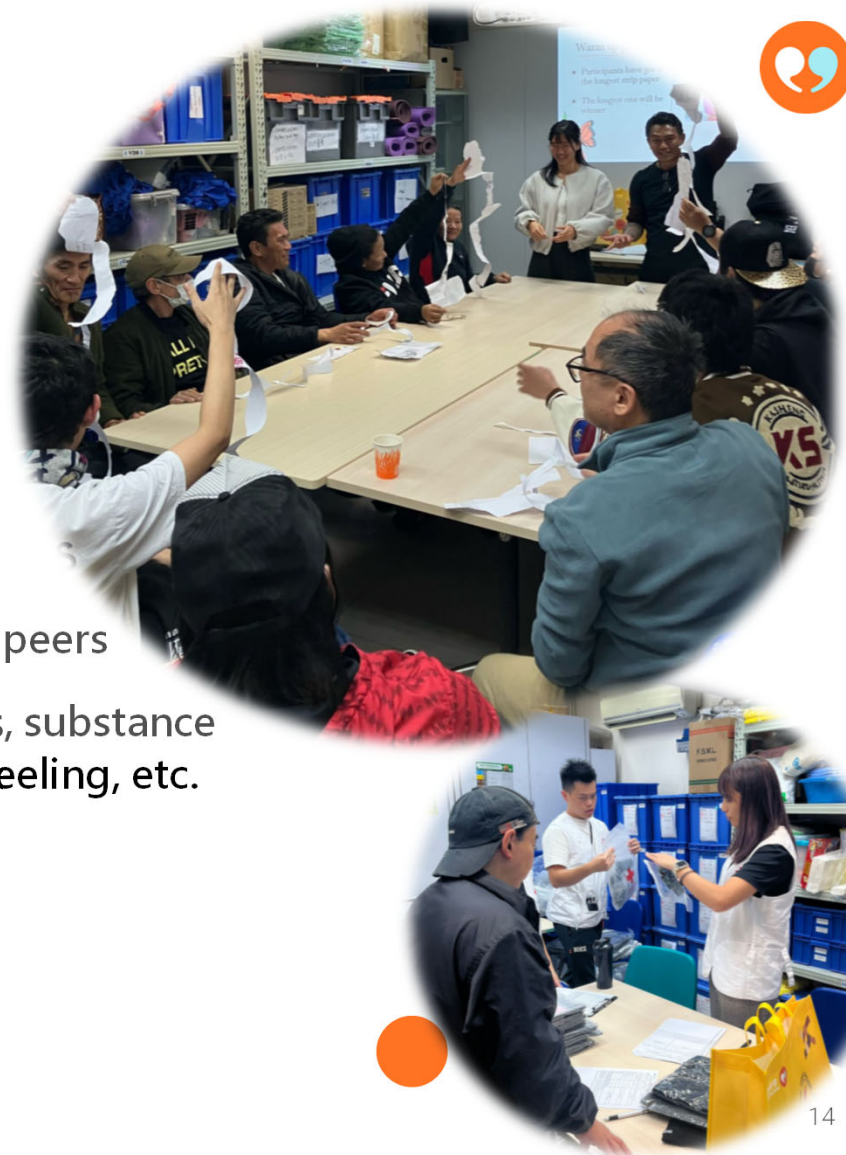

Induction program- Health Support Group & Drop-in Service

Key Challenges

Low awareness on physical and mental health

Intervention and effectiveness

1. Rehab Experience Sharing: Shared by EM SPS and rehab peers
2. Rehabilitation & Health Talk: Hostel and SAC treatments, substance induced mental illnesses, harm reduction, facing guilty feeling, etc.
3. Community bonding & refreshment for engagement
4. Highest service output reflecting highest service need (1,073 person-times attendance)

Social Rehabilitation- Wellness Friday Group

Key Challenges

High pressure with unhealthy social network

Intervention and effectiveness

1. Regular exercise training to replace drug abuse for relaxation
2. Rehab peers assisting in the group
3. Positive life attitude learnt from ED SPS colleagues
4. 66% of them show improvement in their general well-being (n=103)

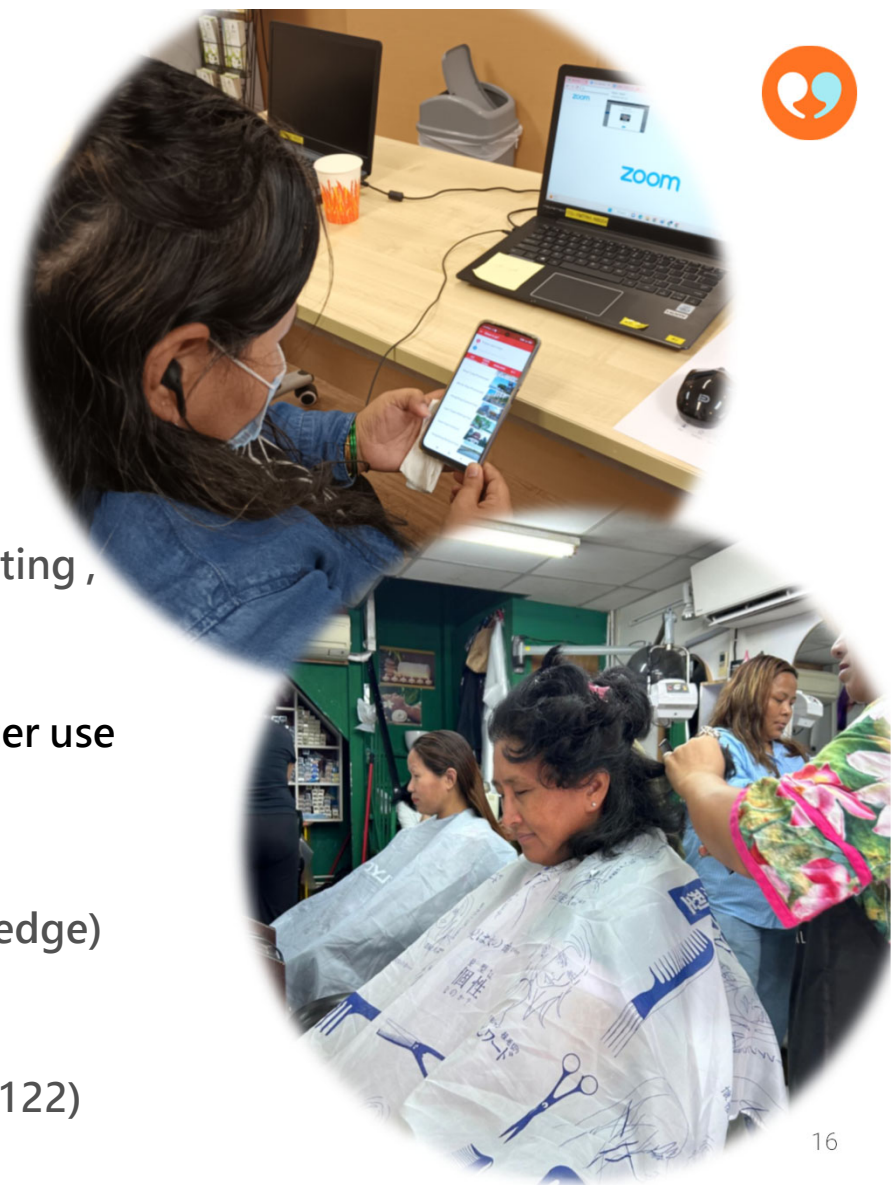

Career and Life Planning Program

Key Challenges

Limited work skills and narrow career choices

Intervention and effectiveness

1. Guided tutor courses for enhancing work skills on hair cutting , car fixing etc.
2. Life skills teaching on Cantonese, Mobile app and computer use
3. From learner to helper, forming Rehab Hair Cutting Team
4. Enriching CV by VASK (Values, Attitudes, Skills and Knowledge) debriefing and completion certificate
5. 73% showed improvement on employment readiness (n=122)

Family Strengthening Program

Key Challenges

High tension on family communication and relationship

Intervention and effectiveness

1. Family outing and home visit
2. Carers Mutual Support Group - education talk related to handling pressure, positive communication, and mindfulness workshop
3. Guided to different social resources for those family members with language barriers
4. 83.6% of the family members showed improvement on the capacity to support their drug abusing family member (n=140)

Service Implication & Sustainability

Service Implication and Sustainability

1. Learning from Nepalese's rehabilitation experience and active drug abusers experience in changing living habit, **drop-in service** has developed into **regular service** for better engagement of EM active drug abusers.
2. From SideBySide research on Sports Rehab and Recovery Model, **Sports Rehabilitation Service has developed** for including also Body-Mind Exercise with psychotherapy education.
3. Career and Life Planning Program helped rehab clients to **break the ceiling** (e.g. **worked at two local** property management companies and construction **companies**).
4. Carers Support Group, EM SPS and SW contributed ideas to publish **Manual for Helping Ethnically Minority Group Substance Abusers** for community education to EM Schools, HA and NGOs. SAC doctors also showed appreciation to our publication and would share the manual with nurses.

Service Implication and Sustainability

5. Our EM SPS and SW with **high cultural sensitivity and skills on rehab** help bridging up the EM clients, families, CCPSA, Hospitals, SWD to engage clients for treatments and receive social resources.
6. Person centred and holistic approach.
7. “We-feeling” support (accompany and empathy) from EM rehabilitated colleague (Ganesh Gurung, our Senior Peer Supporters working for more than 13 years, has established long term relationships with EM drug abusers)
8. Peer System
(Empowering clients with upward mobility)
9. Stability of projects and resources
(lasting for more than 10 years, Apr-Sep 2025 131 head count EM registered our new project)
