Beat Drugs Fund Association Governing Committee's report

The Governing Committee (GC) of the Beat Drugs Fund Association (the Association) presents its annual report together with the audited financial statements for the year ended 31 March 2018.

Principal Activity

The Association operates as a non-profit making association to promote worthwhile anti-drug activities.

Financial Statements

The financial performance and cash flows of the Association for the year ended 31 March 2018 and the Association's financial position at that date are set out in the financial statements on pages 10 to 33.

Funds

Details of movements in the funds of the Association during the year are set out in the statement of changes in funds on page 12.

Governing Committee Members

The composition of the GC during the year and up to the date of this report was :-

Chairman

Mr Joshua LAW Chi-kong, JP	Permanent Secretary for Security (Retired on 1 July 2017)
Ms CHAN Chi-kuen, JP	Permanent Secretary for Security (Appointed on 5 July 2017)

Members

Dr CHU Sau-kwan	
Mr YEUNG Chi-wai, MH	
The Hon CHAN Hak-kan, BBS, JP	(Retired on 1 July 2018)
Mr Michael LEE Tze-hau, JP	(Retired on 1 July 2018)
Ms SO Ching	(Retired on 1 July 2018)
The Hon CHAN Han-pan, BBS, JP	(Appointed on 1 July 2018)
Mr SIU Miu-man	(Appointed on 1 July 2018)
Ms WONG Mei-sze	(Appointed on 1 July 2018)
Mr SIU Man-tat, SBS, JP	Director of Accounting Services (Retired on 3 January 2018)
Mr WONG Shing-hei, JP	Director of Accounting Services (Appointed on 3 January 2018)
Ms CHAN Wing-man, JP	Commissioner for Narcotics
Ms LI Mung-yee	Representative of the Director of Social Welfare
Mr LEE Kam-kwong	Representative of the Secretary for Education (Retired on 16 October 2017)
Ms Cynthia CHAN Chin-woon	Representative of the Secretary for Education (Appointed on 16 October 2017)

In accordance with Article 31 of Part B of the Association's Articles of Association, Dr CHU Sau-kwan, Mr YEUNG Chi-wai, MH, The Hon CHAN Han-pan, BBS, JP, Mr SIU Miu-man and Ms WONG Mei-sze (all being committee members appointed by the Permanent Secretary for Security) shall retire at the coming Annual General Meeting and, being eligible, offer themselves for re-appointment.

Indemnity of members of GC

The permitted indemnity provision in force for the benefit of the GC Members of the Association is set out in paragraph 60 of Part B of the Articles of Association.

Governing Committee Members' Interests in Transaction, Arrangement or Contract

At no time during the year was the Association a party to any transaction, arrangement or contract in which a member of the GC of the Association had, directly or indirectly, a material interest.

Auditor

Baker Tilly Hong Kong Limited was appointed as auditor of the Association upon retirement of Messrs. PKF at the 2017 Annual General Meeting (AGM). A resolution for the re-appointment of Baker Tilly Hong Kong Limited as auditor of the Association is to be proposed at the forthcoming AGM.

Beat Drugs Fund Association
Business review

Overview of the Operation and Annual Performance

The Beat Drugs Fund (the Fund) was established in 1996 with a capital base of HK\$350 million to provide funding support for worthwhile anti-drug projects through its investment income. It is administered by the Beat Drugs Fund Association (the Association), which is a non-profit making company limited by guarantee incorporated under the Companies Ordinance (Cap. 622). A Governing Committee (GC), comprising both official and non-official members, is set up to oversee the administration and investment of the Fund, as well as to consider and approve funding applications, having regard to the recommendations of relevant Government bureaux and departments, as well as the Action Committee Against Narcotics (ACAN).

The Government injected HK\$3 billion into the Fund in 2010, increasing the capital base to HK\$3.35 billion.

Principal Activities Performance

Taking into account the emerging needs of certain areas of anti-drug work, the GC, in consultation with ACAN, has launched various funding schemes, including –

- (a) the Regular Funding Scheme (RFS) which supports community-driven anti-drug activities and programmes on preventive education and publicity (PE&P), treatment and rehabilitation (T&R), and research;
- (b) the Special Funding Scheme (SFS) for Drug Dependent Persons Treatment and Rehabilitation Centres (DTRCs) which provides financial assistance to DTRCs in undertaking works projects for fulfilling the statutory licensing requirements or service enhancement;
- (c) the Healthy School Programme with a Drug Testing Component (HSP(DT)) which is a school-based preventive education initiative for implementation in secondary schools, comprising preventive anti-drug activities and voluntary drug testing;
- (d) the Anti-drug Community Awareness Building Programme (ACAB) which is implemented in collaboration with the District Fight Crime Committees (DFCCs) and District Offices for launching preventive initiatives to enhance the anti-drug awareness in the local communities; and
- (e) the "Participate in Sports, Stay Away from Drugs" Programme which is a school-based student-led preventive education initiative for implementation in secondary schools and aims to promote healthy lifestyles and an anti-drug culture.

In 2017-18 financial year, the funding grants and activities of the five schemes are set out in the ensuing paragraphs.

- *RFS*

Applications under the 2017 RFS were invited in August 2017. Specific priority areas were drawn up with reference to various factors including prevalent drug trends and pertinent service needs to encourage quality submission of proposals for anti-drug projects meeting the community needs.

In 2017-18 financial year, a total of 66 projects covering PE&P, T&R, research and mixed-type projects were approved under the RFS, with a total funding grant of about HK\$153.8 million.

- **SFS**

The SFS provides financial assistance to help DTRCs meet the licensing requirements stipulated in the Drug Dependent Persons Treatment and Rehabilitation Centres (Licensing) Ordinance (Cap. 566) with a view to obtaining a licence and supporting sustained efforts in enhancing service capacity and sophistication. The SFS covers the works connected with the in-situ expansion or redevelopment/re-provisioning of existing DTRCs.

In 2017-18 financial year, three new projects were approved under the SFS, with a total funding grant of about \$355,000.

- **HSP(DT)**

The HSP(DT), a school-based preventive education initiative, comprises two major components, namely anti-drug and personal growth activities as well as voluntary school drug testing. The programme aims at cultivating positive life attitudes among students, thereby enhancing their resolve to stay away from drugs and their capabilities to handle different challenges in life.

In 2017-18 financial year, the GC approved a grant of about HK\$107.6 million for 93 secondary schools and their partnering non-governmental organisations (NGOs) to implement the HSP(DT) for one school year, two consecutive school years or three consecutive school years. This brought the total number of schools participating in the programme to 135.

- **ACAB**

As an effort to tackle the growing problem of hidden drug abuse, the Fund launched the first round of ACAB on a trial basis in 2013 to support all of the 18 DFCCs in implementing suitable initiatives to enhance community awareness about the drug problem. Upon review of its effectiveness, the GC approved the launch of the second round of ACAB from 1 April 2015 to 31 March 2018 after the first round ended in March 2015, involving a total funding of about HK\$6.2 million, with each DFCC granted a maximum of HK\$345,000.

- ***“Participate in Sports, Stay Away from Drugs” Programme***

The “Participate in Sports, Stay Away from Drugs” Programme, a school-based student-led preventive education initiative, was launched on a trial basis in the 2017/18 school year. The programme aims at promoting healthy lifestyles and an anti-drug culture in secondary schools through students’ participation in the organisation of sports-related and/or health-related activities, and in supporting student athletes taking part in sports competitions.

In 2017-18 financial year, the GC approved a grant of about HK\$2.2 million for 110 secondary schools to implement the programme in the 2017/18 school year.

Information on the approved active RFS projects up to 31 March 2018 is shown at Annex A. A summary of approved grants and outstanding commitments of all funding schemes as at 31 March 2018 is shown at Annex B.

Financial Indicators

The Fund’s investment portfolio is expected to fetch over time a return of about 4% per annum to provide financial support to anti-drug projects. For the financial year ended 31 March 2018, the Fund recorded a return of about 12.6%.

For the profit or loss and details of income information of the Fund, please refer to page 11 of the reports and financial statements.

Important Events or Changes

The Association appointed Fair Wind Secretarial Services Limited to act as the Company Secretary on 1 March 2018.

Description of the Principal Risks and Uncertainties Facing the Association

A detailed analysis of the Fund's financial risks, including credit risk, liquidity risk, currency risk, interest rate risk, equity price risk and other financial risks, is set out in note 13 to the financial statements.

Looking Ahead

Over the years, the Fund has provided substantive grants to support worthwhile anti-drug projects. The Association will continue to sustain efforts to support anti-drug projects that could respond to the changing drug scene and rise to challenges of new threats.

In the coming year, the Association would continue to work with ACAN to draw up specific priority areas for the RFS to guide applicants in planning suitable anti-drug projects in response to the latest drug scene. The Association would continue to provide funding support under the SFS to DTRCs in fulfilling statutory licensing requirements. Efforts would continue to progressively roll out the HSP(DT) to more secondary schools to help foster a drug-free culture in schools. The "Participate in Sports, Stay Away from Drugs" Programme would continue to be implemented in the 2018/19 school year in view of the positive feedbacks and comments collected during its trial implementation in the 2017/18 school year. Noting the merits of the ACAB and the need to sustain the momentum in community-driven anti-drug work, the GC has also approved the launch of the third round of ACAB from 1 April 2018 to 31 March 2021 with each DFCC being granted \$380,000.

Environmental Policy and Performance

The Association is committed to achieving environmental protection. We adopt environmental-friendly policies, which are consistent with the government requirement. We also advocate the importance of environmental protection. Project grantees are also encouraged to adopt environmental-friendly measures in project implementation.

Compliance with Relevant Laws/Regulations with Significant Impact

The Association endeavours to comply with all relevant laws and regulations, and there is no compliance matter with significant impact.

An Overview of the Association's Relationship with its Stakeholders

Advisory Bodies

As the Government's main advisory body on anti-drug policies and programmes, ACAN closely monitors the latest drug situation and conducts periodic reviews on the priorities of anti-drug measures, taking into account relevant factors such as the latest drug trend, updated anti-drug policies and strategies, feedback from relevant sectors, etc. Advice of ACAN provides an important reference to the Association in determining the direction and work plan of the Fund, as well as ensuring the effective deployment of funds to meet emerging needs in the anti-drug cause.

The investment strategies of the Fund are formulated and executed within the scope approved by the Association on advice of its Investment Sub-Committee.

Collaborating with NGOs/Engaging Practitioners

Apart from partnership with the advisory bodies, the Association maintains a good collaborative relationship with various NGOs and practitioners in the medical, education, social services and private sectors in promoting anti-drug projects which help to tackle the drug problem in Hong Kong.

On the T&R front, the Association maintains a close relationship with the anti-drug sector and relevant stakeholders in the social services, medical and other related sectors to enable the provision of holistic treatment and rehabilitation services for drug abusers and help minimise their relapse. The Association also works closely with partners to promote training to enhance the skills and knowledge of frontline workers and healthcare professionals in handling the increasingly complex psychotropic substance abuse cases.

On the PE&P front, the school is an important platform for cultivating a drug resistant attitude among young people. The Association engages the school sector, including school sponsoring bodies and relevant stakeholders, to promote the implementation of the HSP(DT) and the "Participate in Sports, Stay Away from Drugs" Programme. The Association also maintains close collaboration with DFCCs and community stakeholders to widen the district anti-drug network and empower members of the community such as parents/family members, and relevant community stakeholders in the furtherance of the anti-drug cause.

On behalf of the GC of the Association

**Independent auditor's report to the members of
Beat Drugs Fund Association**

(Incorporated in Hong Kong with limited liability by guarantee)

Opinion

We have audited the financial statements of Beat Drugs Fund Association (the "Association") set out on pages 10 to 33, which comprise the statement of financial position as at 31 March 2018, and the statement of profit or loss and other comprehensive income, the statement of changes in funds and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements give a true and fair view of the financial position of the Association as at 31 March 2018 and of its financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the Association in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other matter

The financial statements of the Association for the year ended 31 March 2017 were audited by another independent auditor whose report dated 10 November 2017 expressed an unmodified opinion on those financial statements.

Other information

The Governing Committee ("GC") of the Association is responsible for the other information. The other information comprises the information included in the GC's report and the business review, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

**Independent auditor's report to the members of
Beat Drugs Fund Association (continued)**
(Incorporated in Hong Kong with limited liability by guarantee)

Other information (continued)

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Governing Committee for the financial statements

The GC of the Association is responsible for the preparation of financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the GC of the Association determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the GC of the Association is responsible for assessing the Association's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the GC of the Association either intends to liquidate the Association or to cease operations, or has no realistic alternative but to do so.

The GC of the Association is responsible for overseeing the Association's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

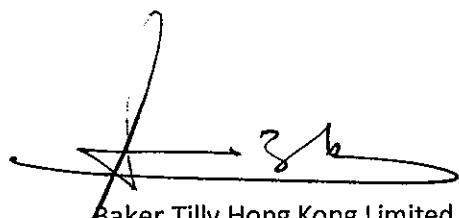

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

**Independent auditor's report to the members of
Beat Drugs Fund Association (continued)**
(Incorporated in Hong Kong with limited liability by guarantee)

Auditor's responsibilities for the audit of the financial statements (continued)

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the GC of the Association.
- Conclude on the appropriateness of the GC of the Association's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Association's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Association to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the GC of the Association regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Beat Drugs Fund Association
Notes to the financial statements
for the year ended 31 March 2018

1. General information

Beat Drugs Fund Association (the "Association") was incorporated on 28 March 1996 in Hong Kong with its liability limited by guarantee. The registered office of the Association is located at Narcotics Division, Security Bureau, 30/F., High Block, Queensway Government Offices, 66 Queensway, Hong Kong.

The Association operates as a non-profit making association to promote worthwhile anti-drug activities.

These financial statements are presented in Hong Kong dollars, which is the same as the functional currency of the Association, and all values are rounded to the nearest thousand except where otherwise indicated.

2. Significant accounting policies

(a) Statement of compliance

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term that includes all applicable individual HKFRSs, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), and accounting principles generally accepted in Hong Kong. These financial statements also comply with the applicable requirements of the Hong Kong Companies Ordinance. A summary of the significant accounting policies adopted by the Association is set out below.

(b) Basis of preparation of the financial statements

The measurement basis used in the preparation of the financial statements is historical cost except that financial assets at fair value through profit or loss and trading financial instruments are stated at fair value as explained in the accounting policies set out below.

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenditure. The estimates and associated assumptions are based on experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

There are no critical accounting judgements involved in the application of the Association's accounting policies. There are also no key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in the next year.

Beat Drugs Fund Association
Notes to the financial statements
for the year ended 31 March 2018

2. Significant accounting policies (cont'd)

(c) Financial assets and financial liabilities

(i) Initial recognition

The Association classifies its financial assets and financial liabilities into different categories at inception, depending on the purpose for which the assets were acquired or the liabilities were incurred. The categories are: trading financial instruments, financial assets at fair value through profit or loss, held-to-maturity securities, loans and receivables and other financial liabilities.

Financial assets and financial liabilities are measured initially at fair value plus, for loans and receivables and other financial liabilities, transaction costs that are directly attributable to the acquisition of the financial assets or the issue of the financial liabilities. Transaction costs on trading financial instruments and financial assets at fair value through profit or loss are expensed immediately.

The Association recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are accounted for at trade date.

(ii) Categorisation and subsequent measurement

Trading financial instruments

These comprise forward currency contracts used by the Association to manage its risks associated with foreign currency fluctuations. Such derivative financial instruments do not qualify for hedge accounting and are categorised as "trading" under HKAS 39, Financial Instruments: Recognition and Measurement.

Trading financial instruments are carried at fair value, and presented as assets when the fair value is positive and as liabilities when the fair value is negative. Changes in the fair value are included in surplus or deficit in the period in which they arise.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss consist of equity and debt securities that are managed and evaluated on a fair value basis in accordance with a documented risk management and investment strategy.

Financial assets at fair value through profit or loss are carried at fair value. Changes in the fair value are included in surplus or deficit in the period in which they arise.

Beat Drugs Fund Association
Notes to the financial statements
for the year ended 31 March 2018

2. Significant accounting policies (cont'd)

(c) **Financial assets and financial liabilities (cont'd)**

(ii) **Categorisation and subsequent measurement (cont'd)**

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. This category includes cash at bank, deposits with banks and other financial institutions, receivables and other assets.

Loans and receivables are carried at amortised cost using the effective interest method less impairment losses, if any (note 2(c)(vi)).

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Association estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. The calculation includes all fees received or paid between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Held-to-maturity securities

Held-to-maturity securities are non-derivative financial assets with fixed or determinable payments and fixed maturity which the Association has the positive intention and ability to hold to maturity, other than (i) those that the Association, upon initial recognition, designates as at fair value; and (ii) those that meet the definition of loans and receivables.

Held-to-maturity securities are carried at amortised cost using the effective interest method less impairment losses, if any (note 2(c)(vi)).

Other financial liabilities

These are financial liabilities other than trading financial instruments. This category includes payables and other liabilities. They are carried at amortised cost using the effective interest method.

Beat Drugs Fund Association
Notes to the financial statements
for the year ended 31 March 2018

2. Significant accounting policies (cont'd)

(c) **Financial assets and financial liabilities (cont'd)**

(iii) **Fair value measurement principles**

The Association measures its investments in securities and trading financial instruments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either (a) in the principal market for the asset or liability, or (b) in the absence of a principal market, in the most advantageous market for the asset or liability; and the Association has access to these markets at the measurement date.

The fair value of an asset or a liability is measured with those assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The Association uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. The Association measures fair values using the following fair value hierarchy that reflects the significance of inputs used in making the measurements:

Level 1 – fair values are quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – fair values are determined with inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 – fair values of financial instruments are determined with inputs that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Association determines whether transfers between levels in the hierarchy should be reflected in the financial statements by re-assessing categorisation (based on the level of input that is most significant and relevant to the fair value measurement as a whole) at the end of the reporting period.

(iv) **Derecognition**

A financial asset is derecognised when the contractual rights to receive the cash flows from the financial asset expire, or where the financial asset together with substantially all the risks and rewards of ownership have been transferred.

The Association uses the weighted average method to determine realised gains and losses to be recognised in surplus or deficit on derecognition.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or when it expires.

Beat Drugs Fund Association
Notes to the financial statements
for the year ended 31 March 2018

2. Significant accounting policies (cont'd)

(c) **Financial assets and financial liabilities (cont'd)**

(v) **Offsetting**

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liabilities simultaneously.

(vi) **Impairment of financial assets**

The carrying amounts of loans and receivables are reviewed at the end of each reporting period to determine whether there is objective evidence of impairment. If any such evidence exists, an impairment loss is recognised in surplus or deficit as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. If in a subsequent period the amount of such impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through surplus or deficit. A reversal of impairment losses is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years.

(d) **Revenue recognition**

(i) **Interest income**

Interest income is recognised in surplus or deficit on an accrual basis, using the effective interest method.

(ii) **Dividend income**

Dividend income from equity securities is recognised in surplus or deficit when the share price is quoted ex-dividend.

(iii) **Net realised and fair value gains/losses**

Realised gains or losses on financial instruments are recognised in surplus or deficit when the financial instruments are derecognised. Changes in fair value of trading financial instruments and financial assets at fair value through profit or loss are recognised as fair value gains or losses in surplus or deficit in the period in which they arise.

(iv) **Other income**

Other income is recognised in surplus or deficit on an accrual basis.

Beat Drugs Fund Association
Notes to the financial statements
for the year ended 31 March 2018

2. Significant accounting policies (cont'd)

(e) Grants recognition

Grants are recognised as expenditure when they are approved except in those cases where the release of grant is subject to certain conditions, such grants are only recognised as expenditure when the conditions are met.

(f) Employee benefits

Salaries, contract gratuities, annual leave entitlements and the cost to the Association of non-monetary benefits are accrued in the year in which the associated services are rendered by employees of the Association.

Obligations for contributions to defined contribution retirement plan under the Hong Kong Mandatory Provident Fund Schemes Ordinance are recognised as an expense in surplus or deficit as incurred.

Termination benefits are recognised when, and only when, the Association demonstrably commits itself to terminate employment or to provide benefits as a result of voluntary redundancy by having a detailed formal plan which is without realistic possibility of withdrawal.

(g) Foreign currency translation

Foreign currency transactions during the year are translated into Hong Kong dollars at the spot exchange rates at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into Hong Kong dollars at the closing exchange rates at the end of the reporting period. All foreign currency translation differences are recognised in surplus or deficit. Non-monetary assets and liabilities carried at fair value denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined and the exchange differences arising are recognised in surplus or deficit, except for the exchange component of a gain or loss that is recognised directly in equity.

(h) Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents include cash at bank and deposits with banks and other financial institutions with original maturity within three months.

(i) Impact of new and revised HKFRSs

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period. There have been no changes to the accounting policies applied in the financial statements for the years presented as a result of these developments. The Association has not applied any new HKFRSs that are not yet effective for the current accounting period (note 14).

Beat Drugs Fund Association
Notes to the financial statements
for the year ended 31 March 2018

3. Taxation

No provision for Hong Kong profits tax has been made in these financial statements as the Association is exempted from Hong Kong profits tax under section 88 of the Hong Kong Inland Revenue Ordinance.

4. Governing Committee members' remuneration

No remuneration as defined in section 383 to the Hong Kong Companies Ordinance was paid or payable to any GC members during the current and last year.

5. Financial instruments by category

The carrying amounts of each of the categories of financial instruments as at the end of the reporting period are as follows :-

	<i>2018</i>			
	<i>Financial assets at fair value through profit or loss HK\$'000</i>	<i>Financial assets carried at amortised cost HK\$'000</i>	<i>Loans and Receivables HK\$'000</i>	<i>Total HK\$'000</i>

6. Placement with the Exchange Fund

The balance of the placement with the Exchange Fund amounted to HK\$298.5 million (2017 : HK\$193.6 million), being the principal sums of HK\$291.2 million (2017 : HK\$191.2 million) plus interest paid but not yet withdrawn at the end of the reporting period of HK\$7.3 million (2017 : HK\$2.4 million). The term of the placement is six years from the date of placement, during which the amount of principal sums cannot be withdrawn.

Interest on the placement is payable at a fixed rate determined every January. The rate is the average annual investment return of the Exchange Fund's Investment Portfolio for the past six years or the average annual yield of three-year government bond for the previous year subject to a minimum of zero percent, whichever is the higher. The interest rate has been fixed at 4.6% for the calendar year 2018 and at 2.8% for the calendar year 2017.

Short-term bank time deposits with original maturity within three months	127,949	125,652
Cash at banks	<u>4,780</u>	<u>543</u>
	<u>754,720</u>	<u>695,023</u>

Short-term bank time deposits have a short maturity of generally within three months when acquired. All of the bank time deposits earn interest at rates ranging from 0.9% to 4.2% (2017 : 0.9% to 3.4%) per annum.

11. Capital fund

The Association is a company limited by guarantee and not having a share capital. In accordance with the Association's Articles of Association, the liability of each member is limited by guarantee to HK\$100 each.

The capital fund balance of HK\$3,350 million represents the sum of two grants received from the Government, one for HK\$350 million received in March 1996 and the other for HK\$3,000 million received in June 2010. Under the Association's Articles of Association, the Association is permitted to invest and deal with the moneys of the Association not immediately required for its purposes in or upon such investments, securities or property as may be thought fit subject to such conditions and such consents as may from time to time be imposed by the Financial Secretary or the Secretary for Financial Services and the Treasury.

Cash and cash equivalents	<u>161,912</u>	<u>159,766</u>

13. Financial risk management objective and policies

(a) Credit risk

Credit risk is the risk that an issuer or counterparty will cause a financial loss to the Association by failing to discharge an obligation. The Association's financial assets which are potentially subject to credit risk consist principally of debt securities, bank balances and placement with the Exchange Fund. The credit risk associated with placement with the Exchange Fund is considered to be low. The Association selects issuer or counterparty with good credit standing, strong financial strength and sizable capital. The Association also limits the individual exposure, in accordance with a documented risk management and investment strategy and monitors credit risk on a continuous basis.

The Association's maximum exposure to credit risk as at 31 March 2018 and 31 March 2017 without taking account of collateral held or other credit enhancements, if any, were as follows :-

	2018 HK\$'000	2017 HK\$'000
Cash at banks and financial institutions	33,963	34,114
Bank time deposits	<u>749,940</u>	<u>694,480</u>
	783,903	728,594

for the year ended 31 March 2018

13. Financial risk management objective and policies (cont'd)

(b) Liquidity risk

Liquidity risk is the risk that the Association will encounter difficulty in meeting obligations associated with financial liabilities. The Association monitors the liquidity requirements on a continuous basis and maintains a level of short-term deposits and cash to pay grants and operating expenses as necessary. Hence the Association does not have significant exposure to liquidity risk.

Maturities of the non-derivative financial liabilities that will be settled on a net basis of the Association as at 31 March 2018 and 31 March 2017 were as follows :-

	<i>2018</i> <i>HK\$'000</i>	<i>2017</i> <i>HK\$'000</i>
Total amounts of contractual undiscounted obligations		
Payables managed by fund managers	22,041	4,907

for the year ended 31 March 2018

13. Financial risk management objective and policies (cont'd)

(c) **Currency risk**

Currency risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to the changes in currency exchange rates. The Association's non-Hong Kong dollars investments are exposed to currency risk. The Association only makes investments denominated in Hong Kong dollar, United States dollar and currency of a country whose foreign currency long-term debt has a high credit rating. The Association's exposure to currency risk is handled in accordance with a documented risk management and investment strategy, and the Association monitors the currency risk on a continuous basis.

Carrying amounts of net financial assets as at 31 March 2018 and 31 March 2017 exposed to currency risk were as follows :-

	2018		
	Monetary assets HK\$'000	Non-monetary assets HK\$'000	Total HK\$'000
Euro	97,146	243,797	340,943

Beat Drugs Fund Association
Notes to the financial statements
for the year ended 31 March 2018

13. Financial risk management objective and policies (cont'd)

(d) Interest rate risk

Interest rate risk is the risk that the fair value of financial instruments will fluctuate because of changes in market interest rates. The Association's debt securities stated at fair value are exposed to interest rate risk. Investments in debt securities stated at fair value are made in accordance with a documented risk management and investment strategy, and the Association monitors the interest rate risk on a continuous basis.

As regards deposits with banks, since they are all stated at amortised cost, their carrying amounts and the Association's income and accumulated funds will not be affected by changes in market interest rates.

The table below sets out the Association's exposure to the fair value interest rate risk. If the interest rates had been 100 basis points higher/lower with all other variables held constant, the impact on the income for the year would have been as follows :-

	<i>2018</i> <i>HK\$'000</i>	<i>2017</i> <i>HK\$'000</i>
Effect on income for changes in interest rates +/- 100 basis points	-/+ <u>64,138</u>	-/+ <u>57,815</u>

(e) Equity price risk

Equity price risk is the risk of loss arising from changes in equity prices. The Association's equities are subject to the equity price risk inherent in all equity securities i.e. the value of holdings may fall as well as rise. At 31 March 2018, the equity securities were reported as financial assets at fair value through profit or loss as shown in Note 7. The risk is primarily addressed through diversification of investment portfolio in accordance with a documented risk management and investment strategy, and the Association monitors the equity price risk on a continuous basis.

If the market bid prices of the equity securities had increased/decreased by 5% with all other variables held constant, the impact on the income for the year would have been as follows :-

	<i>2018</i> <i>HK\$'000</i>	<i>2017</i> <i>HK\$'000</i>
Effect on income for changes of +/- 5% in prices	-/- <u>123,415</u>	-/- <u>112,501</u>

Beat Drugs Fund Association
Notes to the financial statements
for the year ended 31 March 2018

13. Financial risk management objective and policies (cont'd)

(f) Other financial risk

The Association is exposed to financial risk arising from change in the interest rate on the placement with the Exchange Fund which is determined every January (Note 6). It was estimated that, as at 31 March 2018, a 50 basis points increase/decrease in the interest rate, with all other variables held constant, would increase / decrease the surplus for the year by HK\$1.0 million (2017: HK\$0.5 million).

(g) Fair values

i) Financial instruments measured at fair value on a recurring basis

The fair value of financial instruments classified under Level 1 is based on the quoted market prices of these financial instruments at the end of the reporting period, without any deduction for estimated future selling costs.

In the absence of such quoted prices, the fair value of financial instruments classified under Level 2 is estimated using present value or other valuation techniques which maximise the use of observable data, using inputs based on market conditions existing at the end of the reporting period.

The following table presents the carrying value of financial instruments measured at fair value at 31 March 2018, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair Value Measurement.

	<i>2018</i>			
	<i>Level 1 HK\$'000</i>	<i>Level 2 HK\$'000</i>	<i>Level 3 HK\$'000</i>	<i>Total HK\$'000</i>
Assets				
Financial assets at fair value through profit or loss	3,171,204	396,382	-	3,567,586
Trading financial instruments - Forward currency contracts	-	1,621	-	1,621
Liabilities				
Trading financial instruments - Forward currency contracts	-	(3,640)	-	(3,640)
	<u>3,171,204</u>	<u>394,363</u>	<u>-</u>	<u>3,565,567</u>

Beat Drugs Fund Association
Notes to the financial statements
for the year ended 31 March 2018

13. Financial risk management objective and policies (cont'd)

(g) Fair values (cont'd)

i) Financial instruments measured at fair value on a recurring basis (cont'd)

	2017			
	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000	Total HK\$'000
Assets				
Financial assets at fair value through profit or loss	2,886,086	420,556	-	3,306,642
Trading financial instruments - Forward currency contracts	-	2,169	-	2,169
Liabilities				
Trading financial instruments - Forward currency contracts	-	(3,615)	-	(3,615)
	<u>2,886,086</u>	<u>419,110</u>	<u>-</u>	<u>3,305,196</u>

During the years ended 31 March 2018 and 31 March 2017, there was no transfer between financial instruments in Level 1 and Level 2.

ii) Financial instruments not measured at fair value on a recurring basis

All other financial instruments are stated in the statement of financial position at amounts equal to or not materially different from their fair values.

(h) Investment management and control

In accordance with Article 3(K) of the Part A of the Articles of Association of the Association, moneys of the Association not immediately required for its purposes shall be invested in such investments, securities or property as may be thought fit subject to such conditions and such consents as may from time to time be imposed by the Financial Secretary or the Secretary for Financial Services and the Treasury.

Article 37 of the Part B of the Articles of Association provides that the business of the Association should be managed by the Governing Committee whose composition is specified in Article 3 of the Part B of the Articles of Association. Pursuant to Article 37 of the Part B of the Articles of Association, the Governing Committee has exercised its power and appointed an Investment Sub-Committee to advise on investment matters.

The principal investment objective is, as far as practicable, to maintain the capital fund intact in the long run and to produce a stable income sufficient to support the annual expenditure of the Association.

Beat Drugs Fund Association
Notes to the financial statements
for the year ended 31 March 2018

13. Financial risk management objective and policies (cont'd)

(h) **Investment management and control (cont'd)**

The investment management and control of the Association are set out in a documented risk management and investment strategy and reviewed on a regular basis by the Investment Sub-Committee and the Governing Committee.

14. Possible impact of amendments, new standards and interpretations issued but not yet effective for the year ended 31 March 2018

Up to the date of issue of the financial statements, the HKICPA has issued a number of amendments, new standards and interpretations which are not yet effective for the year ended 31 March 2018 and which have not been early adopted in the financial statements. None of these is expected to have a significant impact on the financial statements of the Association, except for the following : -

Effective for accounting periods
beginning on or after

HKFRS 9, Financial Instruments

1 January 2018

The Association is in the process of making an assessment of what impact of these amendments, new standards and interpretations is expected to be in the period of initial adoption. So far, it has concluded that the adoption of HKFRS 9 may affect the classification and measurement of the Association's financial instruments.

GRANTS TO APPROVED ACTIVE REGULAR FUNDING SCHEME PROJECTS
 (as at 31 March 2018)

Annex A

Note

Annex A

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
I. Projects Approved in 2011 Funding Exercise			

(a) Treatment and Rehabilitation

1	Yang Memorial Methodist Social Service	Community based Recovery & Support Program for the South Asians in Yuen Long	3,188,152.00	Project completed. This project targeted the ethnic minorities in Yuen Long with a view to identifying and engaging drug dependent persons in drug detoxification and aftercare services. Peer counselling, Chinese medical and acupuncture treatment and cognitive-behavioural therapy were provided to reduce withdrawal symptoms and enhance quitting motivation. Job skills training, support to families of drug dependent persons and other measures were also provided to assist them to reintegrate into the society.
2	Department of Psychiatry, The Chinese University of Hong Kong	Change in cognitive function and biomarkers of neurotoxicity following abstinence of ketamine: A prospective longitudinal study	1,904,044.00	Ongoing project. The change in cognitive function and neurotoxical biomarkers in blood sample following abstinence from ketamine will be established in this project. Correlations between these changes will also be explored. The findings of the study will provide useful information about the reversibility of cognitive deficits caused by Ketamine abuse.
		Sub-total	5,092,196.00	

II. Projects Approved in 2012 Funding Exercise

(a) Treatment and Rehabilitation

1	Hong Kong Sheng Kung Hui Welfare Council	Love Can Change – Substance Abuse Counselling Scheme	2,024,620.00	Project completed. The project targeted drug abusers, rehabilitees and their spouses/partners. It aimed at improving the drug abusers' relationship with their partners/spouses through couple therapy and family therapy and preventing them from relapse. Activities comprised individual and couple counselling, family and spouse support groups, relationship enrichment programmes and supplementary support services including Chinese medication service and child cognitive ability assessment. A sharing session with anti-drug professionals had been arranged.
		Sub-total	2,024,620.00	

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
<u>III. Projects Approved in 2013 Funding Exercise</u>			
(a) Treatment and Rehabilitation			
1 Mission Ark Limited	重返社會職前培訓計劃 之 舞台音響與燈光設計及技術培訓	1,350,523.00	Project completed. The project provided two vocational training courses including stage sound set technology training and stage lighting design technology training to the drug treatment and rehabilitation centre residents to enhance their employability and facilitate their re-integration into the community as well as to prevent relapse.
2 Tuen Mun Substance Abuse Clinic and Occupational Therapy Department of Castle Peak Hospital	Lifestyle Redesign Program	4,920,520.00	Project completed. The project aimed to help young substance abusers and rehabilitants build a healthy and active lifestyle through meaningful engagement in vocational, leisure and daily life activities. The project consisted of four parts, namely (a) screening suitable service users; (b) identifying service users' strength through comprehensive assessments and helping them formulate lifestyle re-design plan; (c) providing job matching, leisure groups and socializing groups; and (d) rendering job coaching and life coaching to facilitate service users' maintenance of healthy lifestyle.
3 Youth Urological Treatment Centre, Department of Surgery, The Chinese University of Hong Kong	An evidence-based two-tier urological treatment and liver-injury surveillance program to young ketamine abusers with urinary tract dysfunction	3,184,876.70	Project completed. The project aimed at improving the urological symptoms and voiding function of young ketamine abusers with urinary tract dysfunction by providing fast-track urological assessment and treatment; identifying those young ketamine abusers at high risk of developing severe liver damage by introducing a ketamine-associated liver injury surveillance programme; and identifying those residents of drug treatment and rehabilitation centres who would benefit from formal urological assessment and treatment.
(b) Mixed-type			
4 Hong Kong Lutheran Social Service - Cheer Lutheran Centre	We-Cycle	1,342,640.00	Project completed. The project encouraged drug abusers in Tai Po and North District to live a healthier lifestyle through sport intervention. Trainings in the areas of first-aid, bike technique and maintenance, physical fitness, interpersonal skills and guided tour were provided to drug dependent persons. It provided bike guided tours to the students, at-risk youths, social workers and the general public and produced a publication for experience sharing.
5 Youth Outreach	Street Transformer Program	1,330,720.00	Project completed. The project identified and provided intervention for youth drug abusers through street dance, street art and adventure-based activities. Resilience training, job placement and mutual-help groups were provided for supporting the participants.

<u>Approved</u>	<u>Agency</u>	<u>Project</u>	<u>Grant</u> <u>HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
(c) Research	6 Pearl River Delta Social Research Centre, Department of Sociology, The Chinese University of Hong Kong	Monitoring Recent Changes of Cross-Border Drug Use and Their Implications for Prevention/Control Strategies	630,890.00	Project completed. The project aimed at exploring the latest trend of cross-border drug use and its socio-political-legal context by surveying border travellers.
		Sub-total	12,760,169.70	
IV. Projects Approved in 2014 Funding Exercise				
(a) Treatment and Rehabilitation				
1	Kwai Chung Hospital	Occupational Lifestyle Redesign • Life Role Re-establishment Project	1,531,300.00	Project completed. The project aimed at providing lifestyle rebuilding services for drug abusers receiving rehabilitation services in phases to enhance their motivation for treatment, reduce their drug abuse behaviour and relapse risk, enhance mental well-being, establish proper life roles and improve their functioning.
2	Wu Oi Christian Centre	Vocational Training Courses and Aftercare Scheme	762,835.00	Ongoing project. The project provides vocational training courses including dessert making, baking, graphic design and pre-employment training to female residents of the drug treatment and rehabilitation centre to enhance their employability and to prevent relapse. An aftercare group will also be established to help them reintegrate into society.
3	Department of Social Work, The Chinese University of Hong Kong	Sprouting a New Life Journey: A Holistic Parent Counselling, Education and Support Program for Drug-Abusing Parents	3,730,103.00	Ongoing project. The project develops a holistic parent counselling support and education project for pregnant abusers and drug-abusing parents in the Kowloon East District. The project components include qualitative needs assessment study; training workshops for practitioners and students of social work, healthcare, parent education and teaching professions; individual counselling and treatment services for drug-abusing parents or parents-to-be; prenatal and postnatal healthcare services; parent support and education groups; training programmes for parent volunteers and publication of a parent education and support manual.
4	Hong Kong Christian Service	Chinese Medical Treatment on Urinary Problem	235,200.00	Project completed. The project aimed at reducing drug rehabilitees' urological symptoms through Chinese Medical treatment including acupuncture therapy and Chinese herbal medicine. Hope instillation workshops and lifestyle reformation workshops were also provided.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
5 Tung Wah Group of Hospitals	Certified Addiction Counsellor Training	598,512.00	Project completed. The project aimed at providing addiction counsellor training to drug treatment professionals. Participants who successfully completed the training and passed the assessment were issued a professional credential or a certificate by Asia Pacific Association for Addiction Professionals.
6 Christian New Life Association Limited	重返社區展愛心 - 綜合社區支援計劃	1,585,600.00	Project completed. The project offered vocational training including paint and white wash, plumbing and sanitary ware and electrical appliances installation courses for drug rehabilitees. The trained rehabilitees formed a volunteer team to do minor repair services for low income families. Participants attended professional qualification examinations after completion of training.
(b) Preventive Education and Publicity			
7 The Hong Kong Federation of Youth Groups	Drug Prevention Micro Film Contest and Educational Package	1,964,813.00	Ongoing project. The project aims at raising the anti-drug awareness of young people and general public through production and broadcasting of anti-drug micro-films and anti-drug activities including micro-film production workshop and camp, production of an Announcement in Public Interest, production and dissemination of a multi-media anti-drug education pack for teachers and youth workers etc.
(c) Mixed-type			
8 Tung Wah Group of Hospitals	Path Builders for drug abusers-community rehabilitation project	1,648,136.80	Ongoing project. The project aims at providing employment assistance and support to drug abusers to help them reintegrate into society. The programme includes engaging hidden drug abusers through a pilot online job market platform, pre-employment support and job placement, and providing follow-up counselling and mutual support group. Drug-related educational programme will also be organised for employers.
9 North District Hospital, Tai Po Hospital and Alice Ho Miu Ling Nethersole Hospital	Tap the hidden, Tap your talent	4,513,301.96	Ongoing project. The project aims at promoting new approaches to tackle the problem of hidden drug abusers with co-morbid psychiatric disorders. The programme includes professional and comprehensive early assessment and identification of hidden drug abusers, design and delivery of individualised tailor-made care programme and treatment plan for the hidden drug abusers etc.
10 Hong Kong Lutheran Social Service	I Plus 1 - Integrated Community Scheme	1,278,831.00	Ongoing project. The project aims at enabling family members of drug abusers to cope with emotional distress and equip them to become peer counsellors for other families that have hidden drug abusers at home. The programme includes community education course, peer counsellor training, mutual support group and therapeutic classes for family members of drug abusers, and life story drama for the general public to raise the awareness of community towards the needs of drug abusers' family members.

	<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
11	The Hong Kong Federation of Youth Groups	Project ADSF	2,423,069.00	Project completed. The project aimed at strengthening the family skills of parents and enabling them to identify and handle young drug abusers in their families. Project activities included setting up of anti-drug website and apps to disseminate anti-drug information, outreaching, counselling services, training course and educational programme for family members with at-risk or youth drug abusers.
12	Rainbow of Hong Kong Limited	A Drug Rehabilitation Programme for Ethnic Minority and Marginalized Queers	551,391.00	Project completed. The project aimed at providing drug rehabilitation services and anti-drug education to the communities of men who have sex with men. Project activities included anti-drug awareness seminars, peer counsellor training, support group and art therapy group.
(d) Research				
13	Hospital Authority Toxicology Reference Laboratory	Validation of rapid oral fluid test (ROFT) devices for on-spot screening of drug users	2,756,757.00	Project completed. The research project aimed to (i) develop and validate a chromatography-based method for quantitative analysis of illicit drugs in oral fluid; and (ii) evaluate the sensitivity, specificity and accuracy of commercial ROFT devices for detection of the illicit drugs from oral fluid samples collected from subjects recruited in substance abuse clinics and a drug rehabilitation centre, thus to identify the potential ROFT devices suitable for local use.
14	Department of Psychology, The University of Hong Kong	Substance Abuse Rehabilitation in a Therapeutic Community: A Multi-wave, Cross-Sequential, Mixed-Methods Study of Christian Zheng Sheng College	268,212.00	Ongoing project. The research project examines the longer-term positive changes in youth who are part of a Therapeutic Community of the Christian Zheng Sheng College in Hong Kong.
15	The Hong Kong Polytechnic University	Enhanced Detection and Quantitation of Drugs-of-abuse in Urine and Oral Fluid by Solid Phase Microextraction Coupled with Mass Spectrometry	987,390.00	Project completed. The research project aimed at developing solid phase microextraction with mass spectrometry methods for rapid and sensitive analysis of common abused drugs, ketamine, methamphetamine, cocaine, ecstasy, cannabis and heroin, and their metabolites in urine and oral fluids.
16	The Hong Kong Jockey Club Centre for Suicide Research and Prevention, The University of Hong Kong	Assessing the socioeconomic costs of drug abuse in Hong Kong SAR	1,807,871.30	Project completed. The research project aimed at (i) identifying and assessing the nature, extent and impact of various associated factors and externalities contributing to the socioeconomic costs due to drug abuse in the context of Hong Kong; (ii) determining the socioeconomic consequences of drug abuse by different types of illicit drugs in Hong Kong based on the available analytical framework; and (iii) identifying which subgroups of population suffers the most from drug abuse in terms of socioeconomic costs.

<u>Approved Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
17 Li Ka Shing Faculty of Medicine, The University of Hong Kong	Gastrointestinal, hepatic and biliary sequelae of frequent ketamine use: a prospective observational study	984,920.00	Ongoing project. The objectives of this research project are to (i) determine the underlying aetiology of abdominal discomfort among frequent ketamine users; and (ii) determine the prevalence of different gastrointestinal, liver and biliary pathologies among frequent ketamine users and to determine risk factors associated with the development of different gastrointestinal, liver and biliary pathologies among frequent ketamine users.
	Sub-total	27,628,243.06	
V. Projects Approved in 2015 Funding Exercise			
(a) Treatment and Rehabilitation			
1 Department of Social Work and Social Administration, Faculty of Social Sciences, The University of Hong Kong	One-year Training on Integrated Cognitive-Behaviour Intervention for Social Workers working with Youth Drug Abusers	978,267.63	Ongoing project. The project aims at developing an integrated cognitive-behavioural therapeutic (CBT) model for helping young drug abusers. It will provide systematic training, intervention and supervision in two phases. Phase 1 provides comprehensive training workshops for frontline anti-drug social workers in the anti-drug field. In Phase 2, social workers will deliver integrated CBT to young drug abusers. A training manual on the integrated CBT model for young drug abusers will also be produced.
2 Tung Wah Group of Hospitals	SACH-IV Project: Substance Abuse Counselling for HIV/AIDS-infected Drug Abuser	1,841,834.00	Ongoing project. The project aims at (a) providing drug abuse counselling service to HIV/AIDS-infected drug abusers; (b) providing sharing sessions to professionals working in HIV clinics and HIV/AIDS service organisations; and (c) providing preventive education to HIV/AIDS-infected patients who are at risk of drug abuse. There will be collaboration with HIV clinics under Hospital Authority to serve HIV/AIDS patients who are at risk to drug abuse. The project activities include counselling sessions to HIV/AIDS-infected drug abusers; provision of sharing sessions on treatment of drug abuse for professionals working with HIV/AIDS-infected people; and provision of drug abuse counselling to patients infected with HIV/AIDS.
3 Tung Wah Group of Hospitals	Outreach Family Based Intervention for Hidden Drug Abuser	2,477,076.00	Ongoing project. The project aims at enhancing hidden drug abusers' motivation to quit drugs and family member's competence in supporting drug abusers. The activities include: (a) pre-home visit assessment; (b) home visits and counselling service to families of hidden drug abusers; (c) training workshops to ambassadors; and (d) healthy lifestyle activities for drug abusers and their family members. Hidden drug abusers will be referred to drug treatment and rehabilitation service upon receiving their consent.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
4 Wu Oi Christian Centre	Vocational Skill Training and Peer Supporting Scheme	729,860.00	Ongoing project. The project aims at enhancing the vocational skills of the residents of the drug treatment and rehabilitation centre and their sense of self-efficacy, reducing their relapse rates and facilitating them to reintegrate into society. Vocational training courses and aftercare support group will be arranged for rehabilitees.
5 The Hong Kong Council of Social Service	The 10th Mainland, Hong Kong and Macau Conference on Prevention of Drug Abuse	622,420.00	Project completed. The project aimed at creating a platform to exchange professional experience in tackling drugs and developing collaborative interactions among experts, scholars and government officials within the region, i.e. the Mainland, Macau and Hong Kong. The project included a regional conference on prevention of drug abuse, workshops and visits to counselling centres for psychotropic substance abusers and drug treatment and rehabilitation centres etc.
6 St Stephen's Society Limited	Pro Teens	2,125,000.00	Ongoing project. The project aims at providing tailor-made training courses to residents of a drug treatment residential centre. Training courses on generic subjects (including Chinese, Putonghua, English Communications, Information Technology and soft skills) and vocational subjects will be arranged.
7 Caritas - Hong Kong	Touch Point	2,007,876.00	Ongoing project. The project aims at enhancing the motivation of arrested young drug abusers and their hidden peers to quit drugs and helping them start up treatment plan through pre-trial intervention supportive services. Project activities include internet and court outreach service, pre-trial intervention and helping arrested young drug abusers to start up their own treatment plan. Counselling and multiple assessments including education and vocation assessment and personal growth will be provided to arrested young drug abusers, and counselling services to family members of arrested young drug abusers. Counselling and medical assessment will be provided to hidden drug abusers invited through the arrested young drug abusers.
8 Caritas - Hong Kong	BUY (Build Up Your) Career Project (II)	2,252,584.40	Ongoing project. The project aims at helping young drug rehabilitees develop basic employment orientation, learn new job skills, set career plan, serve the community, etc. Project activities include job skills training, career counselling, employment group sessions and talks on employment and career aptitude, agency visits, sharing sessions, volunteer service programmes, and matching suitable participants to apprentice schemes or studying related courses. Other elements include making short videos showing the positive image of rehabilitees for online dissemination.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
9 Evangelical Lutheran Church Social Service - Hong Kong	Project YANA – A Journey to Life Coherence	3,549,607.20	Ongoing project. The project aims at providing family-based training to drug abusers and their families and to prevent inter-generational drug problem. Peer counsellors will share their experiences and success with the public through radio programmes and a web platform. The peer counsellors will render support and guidance to the drug abusers by regular telephone contacts, mails, visits and aftercare follow ups (including counselling, employment planning and employment assistance). Camps will also be organised for drug abusers and their families to motivate them for positive change.
10 Hong Kong Children & Youth Services - Sane Centre	A Bright Mind - Community-based Life and Career Planning Orientation Project	3,077,311.92	Ongoing project. The project aims at providing support to community dwelling rehabilitation through strength-oriented approach and mindfulness-based relapse prevention activities. Mindfulness training, arts activities and physical training will be provided to improve the mental wellness of rehabilitees. Parenting support groups will be offered to young drug abusing parents to prevent inter-generational drug abuse problem. Work trial, job placement and mentorship scheme will be offered to rehabilitees and their family members. Support to family members of drug abusers will be provided through individual and group counselling, etc. Home visits will be organised to families with drug rehabilitees.

Drug related preventive education will be infused into various youth-oriented activities, such as anti-drug camp, leadership training camp, soci-game, etc.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
21 Bravo Theatre	“Drugs Will Kill You” Beat Drugs Education Festival	515,150.00	Project completed. The project aimed at disseminating anti-drug messages to primary and secondary school students through an interactive roving drama show. An anti-drug music video was produced and broadcasted in different schools and through the internet. Anti-drug booklets and notice board panels were produced and distributed to participating schools. Anti-drug variety shows were also organised for the general public.
22 Chinese YMCA of Hong Kong	“Check Point! – One Step Ahead” Ethnic Minority Teenage Beat Drugs Project	2,021,560.00	Ongoing project. The project aims at providing centre-based and outreach services to ethnic minority youths and parents in Yuen Long and Tin Shui Wai districts so as to raise their anti-drug awareness. Project activities include sharing from reformed drug abusers, anti-drug parenting workshops, sharing from ethnic minority celebrities, visits to Hong Kong Jockey Club Drug InfoCentre and drug rehabilitation centres, mobile outreach stations and outreaching services.
23 Community Drug Advisory Council	星級成長路	1,679,628.00	Ongoing project. The project aims at providing anti-drug preventive education to students with special education needs (SEN). Life skill-based training for students and Vocational Training Council trainees with SEN will be organised. Roving anti-drug school talks, anti-drug creative art competition, school-based anti-drug publicity events and parent-child activities will be organised for general students and SEN students.
24 Life Association Limited	“Free from Drug” Anti-drug movie project	1,074,500.00	Ongoing project. The project aims at engaging young film makers in anti-drug training workshops and mobilising them to produce high quality films that can raise the public’s awareness about drug harms. Young film makers will be recruited to participate in a micro-film contest and an anti-drug workshop. The best movie scripts selected by a panel of professional adjudicators will be provided with sponsorship for film production. The final series of anti-drug films produced will be shown in a local cinema and broadcast online.
25 Po Leung Kuk Student Support Services	Healthy life scheme	997,797.00	Ongoing project. The project aims at building up anti-drug awareness of primary school students by visiting the Hong Kong Jockey Club Drug InfoCentre or drug treatment services, organising health checks and information kiosk in schools, soci-games, interactive theatres and health ambassador scheme. Professional training for frontline social workers and online counselling services for parents and young people will also be provided.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
26 Hong Kong Association of Youth Development	"Your Choice" Nano-movie Competition cum "Blazing Spirit" Youth Ambassador Programme	1,392,760.00	Ongoing project. The project aims at raising anti-drug awareness of young people through a short movie competition. Script-writing and nano-movie making workshops will be arranged and a prize presentation ceremony will be organised. The nano-movies will be broadcast in public venues. Roving exhibitions for dissemination of anti-drug publicity materials and information on drug treatment and rehabilitation services will be organised.
(c) Mixed-type			
27 The Hong Kong Federation of Youth Groups	Project EVER – Drug Counselling Program with Virtual and Activity Based	5,142,632.00	Ongoing project. The project aims at adopting a "stepped-care model" for early identification and intervention for high-risk youth and drug abusers with mental health issues using "virtual reality" and activity based exercises. Project elements include early detection and prevention, low intensity intervention and drug risk containment, high intensity therapy and professional development. Assessments on integrated mental health and risk for drug use for students/youths/young adults outside the school network will be conducted. High-risk youths, drug abusers with mental health and emotional issues and family members will receive different levels of intervention services.
28 The Hong Kong Federation of Youth Groups	Begin from Family	4,679,632.00	Ongoing project. The project aims at improving parenting skills and family relationship, as well as reducing criminal and drug abuse problems among at-risk youths and young drug abusers. A screening tool will first be developed in collaboration with university scholars for identification of high risk families. Multi-level training will then be organised for at-risk families or families with drug-abusing members. A localised counselling handbook will be published.
29 The Hong Kong Federation of Youth Groups	"Project SEToff"–Anti-Drug Program for Working Youth and Hidden Drug Abusers	3,315,412.00	Ongoing project. The project aims at identifying potential drug abusing youths and facilitating drug abusers to reintegrate into the society. Project elements include producing anti-drug videos in collaboration with YouTubers, establishing social media platform for promotion of positive lifestyle and launching of "caring workplace" campaign for dissemination of anti-drug messages, building referral mechanism, providing physical check-up, mental health assessment, brief solution focused therapeutic intervention, and cognitive behavioural therapy for drug abusers, and providing counselling services for family members of drug abusers.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
30 Action for Reach Out	Holistic Wellness : Integrated Anti-drug Service Scheme for Female Sex Workers	2,055,139.00	Ongoing project. The project aims at enhancing the knowledge of female sex workers of the harm of drug use and cultivating a healthy lifestyle to lower their risk of drug abuse. Project activities include individual and outreach visits, group activities, hotline and online outreach, production of anti-drug booklets, provision of counselling and referral service to drug-abusing females. Training workshops for frontline workers from medical, social service and education sectors and peer educators will also be organised.
31 Community Health Organisation for Intervention, Care and Empowerment Limited	Integrated Anti-Drug Service	4,343,234.00	Ongoing project. The project aims at enhancing the anti-drug knowledge of the gay population and the gay drug abusers' motivation to seek help and quit drugs. Preventive education and publicity programmes will be provided to the gay population including outreach, group activities, internet outreaching, publication of anti-drug leaflets and enhancement of mobile apps. Counselling services, therapeutic groups, medical service and peer counsellor training will be provided.
32 Caritas - Hong Kong	Sisterhood and rejuvenation-comprehensive supporting service for young drug abusing mothers and ex-drug abusing young mothers	2,301,336.00	Ongoing project. The project aims at reducing/eliminating drug use of drug abusing mothers, preventing ex-drug abusing mothers from relapse, building a supporting network and improving their parenting skills. Project elements include community drug education programme, individual counselling and work trial scheme for drug-abusing mothers, relapse prevention groups for ex-drug abusing mothers, mutual support programme and vocational training.
33 Caritas - Hong Kong	Project L	5,905,048.00	Ongoing project. The project aims at engaging potential young adult female drug abusers for treatment through art therapy. It also aims at empowering family members, social workers and teachers in supporting drug abusers. Project elements include outreach services, drug awareness and education programmes, drug treatment and rehabilitation services integrated with art therapy, time-out sessions and medical assessment/services for drug abusers or their family members. Community-based art therapy workshop and training workshop for social workers and teachers will also be organised.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
34 Evangelical Lutheran Church Social Service - Hong Kong	Community Study on Drug Abusers of Methamphetamine in Hong Kong cum Exploratory Study of Chinese Medicine Treatment for Substance Abusers of Methamphetamine: Social Inquiry on Abuser Profile, Usage Pattern, Health, Psychological and Social Impacts; cum Exploratory Study of Chinese Herbal Medicine Treatment for Abusers of Methamphetamine	2,314,300.00	Ongoing project. The project aims at studying the profile of methamphetamine abusers in Hong Kong and exploring a Chinese medicine treatment programme for methamphetamine abusers. The project involves a territory-wide survey of methamphetamine abusers, and the screened participants will enter into a Chinese medical treatment to evaluate the use of Chinese medicine in treating methamphetamine-induced symptoms. A project-end report and sharing session will be arranged to share the project outcome with the public.
35 Hong Kong Christian Service	Project HERO - MSM Support Service	2,276,180.00	Ongoing project. The project aims at helping MSM (men who have sex with men) to develop “drug free” identity, improving mutual relationship as well as mental or physical health. Project elements include individual counselling, group session, health talk, Chinese medical consultation, mutual support group, expressive art workshop, creativity group for drug abusing MSM or high risk MSM. A reflecting team will be formed to strengthen the connection among MSM. Physical and online outreaching and media publicity will be organised to promote anti-drug messages and healthy lifestyle. Professional training will also be provided to anti-drug workers to increase their understanding in handling MSM with drug problem.
36 Hong Kong Children & Youth Services - Tai Po District Youth Outreaching Social Work Team	Sports Challenge - anti-drug social network development project	1,249,098.32	Ongoing project. The project aims at identifying hidden young drug abusers as well as enhancing the resilience of drug rehabilitees through sport or art training. The project involves a “train-the-trainer” programme for rehabilitees. Online outreach, peer snowballing and physical outreach to high-risk places will also be conducted to identify high-risk youths, and medical referral will be provided so as to engage drug abusers. The trained rehabilitees will conduct sport or art activities and have regular group gatherings with the high-risk youth and drug abusers. Anti-drug preventive education will also be conducted in the form of sport competitions and sport challenge videos.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
37 Rotary Club of Admiralty Limited	Say No to Drugs – Path Builders for Youth Project	2,403,084.00	Ongoing project. The project aims at facilitating rehabilitees to reintegrate into the society through mentorship scheme. It also aims to promote community acceptance of treatment and rehabilitation services. Project elements include individual counselling services for drug abusers/rehabilitees, mentorship training, mentoring activities including regular gatherings and volunteering activities. Promotion system, job referrals and provision of employment advice will be provided for drug-free mentees with good performance.
38 Christian New Life Association Limited	「一個不能少」之延續「停不了的使命」	2,738,880.00	Ongoing project. The project aims at identifying drug abusers at the early stage by peer-led outreach service. The project will provide training workshops on outreaching skills and counselling theories and skills for rehabilitees. After the training, an outreaching team will be formed to identify drug abusers for treatment. Different engaging activities will be organised for drug abusers and their families. Anti-drug activities and sharing seminar will also be organised to disseminate anti-drug messages to the general public and prisoners.
39 Tung Wah Group of Hospitals	CROSS Fitness - a community-based rehabilitation project	2,646,292.00	Ongoing project. The project aims at encouraging drug abusers to live a healthier lifestyle and enhancing their motivation to quit drug or maintain drug-free through exercise-based intervention. The project covers three main stages. Stage 1 is the Assessment and Motivation Enhancement Stage for drug abusers; Stage 2 is the Exercise-based Intervention Stage for drug abusers and their family members; and Stage 3 is the Consolidation Stage for trainees to provide voluntary social service with sports elements to high-risk youths, general public and inmates in Residential Drug Treatment Centres.
40 The Society for the Aid and Rehabilitation of Drug Abusers	Happy and Healthy Family Scheme	2,640,051.00	Ongoing project. The project aims at enhancing the parenting capacity of drug-abusing/ex-drug abusing parents as well as enhancing the competence of social workers working with drug-using families. The project elements include a Family Reunion Programme for drug-abusing parents and their children, and a Family Enhancement Programme for ex-drug abusing parents and their children. Professional training and sharing session for social workers working with drug-using families will also be organised.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
41 The Society for the Aid and Rehabilitation of Drug Abusers	A Drug free Pluralistic and Harmony Community - A community based reaching out drug prevention and intervention for high-risk and hidden non-Chinese ethnic youth	3,399,724.00	Ongoing project. The project aims at disseminating anti-drug messages and providing community-based intervention to high-risk non-Chinese ethnic youths and potential drug abusers. Project activities include outreaching, on-the-spot crisis intervention and counselling, medical check-up and assessment, mutual support groups, vocational training, leisure building classes, employment counselling and job referral. Mobile information kiosks and mobile Wi-Fi hotspots will be set up in non-Chinese ethnic shops or public parks for dissemination of anti-drug messages to the target groups.
42 Shek Kwu Chau Treatment and Rehabilitation Centre, The Society for the Aid and Rehabilitation of Drug Abusers	Provision of steady vocational training in (1) Plumbing and Pipe-fitting; and (2) Painting and Decoration for Residents of Shek Kwu Chau Treatment and Rehabilitation Centre	895,264.00	Ongoing project. The project aims at providing structured vocational training to residents of Shek Kwu Chau Treatment and Rehabilitation Centre to enhance their employability and facilitate their re-integration into the community. It also aims at enhancing self-efficacy of youths/students to refuse drugs through community education. The project involves provision of plumbing and pipe fitting and painting and decoration courses for rehabilites. Course graduates will be arranged to attend trade test accreditations, provide community services and conduct anti-drug talk/sharing session.
43 United Christian Hospital	A Randomized Control Trial to study the effectiveness of the Mobile Functional Cognition Program for persons who substance abuse	4,164,420.00	Ongoing project. The project aims at investigating the effectiveness of the Mobile Functional Cognition Program (MFCP) in improving drug abusers' cognitive functioning. The project involves provision of MFCP (including pre-assessment and recovery planning, mobile functional cognition training and post-assessment and round up) and conventional psychoeducation for drug abusers. Aftercare meetings and case conferences will be conducted with staff from the referral agencies. A study will be conducted to compare the cognitive abilities and community functioning of the two groups of drug abusers who received different treatment.
44 Community Drug Advisory Council	藝述共融	1,091,073.00	Ongoing project. The project aims at increasing public understanding towards drug rehabilitees and enhancing the self-esteem of rehabilitees through photography. Photography-assisted group sessions will be conducted for rehabilitees. Photos exhibition will then be organised and photo album and postcards will be published to promote community acceptance of treatment and rehabilitation services.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
(d) Research			
45 Department of Psychiatry, The Chinese University of Hong Kong	Ice Induced Psychosis: a Literature Review and a Prevalence Study in Local Ice Abusers	909,955.90	Ongoing project. The project aims at investigating the prevalence of psychiatric comorbidity in a group of methamphetamine (“Ice”) users in Hong Kong. The objectives are to determine the prevalence of “Ice”-induced psychosis (IIP) and psychotic symptoms in local users, to examine the prevalence of mood and anxiety disorders of “ice” users, and to conduct a literature review on IIP to analyse the risk factors, frequency, symptoms, pathomechanism and treatment of IIP.
46 Centre for Health Behaviours Research, JC School of Public Health and Primary Care, Faculty of Medicine, The Chinese University of Hong Kong	Situations and associated factors of psychoactive substance use among men who have sex with men in Hong Kong	560,933.20	Ongoing project. The project aims at conducting an anonymous cross-sectional survey to investigate the profiles of local MSM (men who have sex with men) who are engaging in and/or intending to engage in psychoactive substance use, and the multi-dimensional associated factors (e.g. influence of social media and peers, cognitive variables and psychosocial variables) with psychoactive substance behaviours and/or intention.
47 Department of Pharmacology & Pharmacy, The University of Hong Kong	Understanding Drug Abusers and Their Healthcare Pathway: Towards Better Management in Hong Kong	2,300,115.00	Ongoing project. The project is a hospital-based study aims at investigating the characteristics of drug abusers who require medical care through the Accident and Emergency Department. The project also aims at identifying and understanding the drug abusers in-depth so as to characterise and improve the subsequent downstream clinical pathway of drug abuses as well as to guide the development of a new model of medico-social collaborative interventions for drug abuses in future.
48 Hong Kong College of Technology	Can uncaria rhynchophylla alleviate damages produced by ketamine?	1,295,820.00	Ongoing project. The project aims at conducting experiments on animal models so as to investigate the effect of uncaria rhynchophylla as a potential therapeutic intervention for ketamine-induced damage, or whether it can replace ketamine as another abuse agent, and provide evidence for the underlying mechanism of effect of uncaria rhynchophylla on the central nervous system.
49 The Hong Kong Jockey Club Centre for Suicide Research and Prevention, The University of Hong Kong	Impact Assessment on Healthy School Programme	1,640,552.74	Ongoing project. The project aims at developing a Social Impact Assessment framework suitable to the Hong Kong context to illustrate the relationship between inputs, outputs, and outcomes of the Healthy School Programme with a Drug Testing Component (HSP(DT)); assess the social value of HSP(DT) by different elements of the programme; and ensure that development in HSP(DT) can maximize its benefits and minimize its costs.

VII. Projects Approved in 2017 Funding Exercise			
(a) Treatment and Rehabilitation			
1	Department of Medicine and Therapeutics, The Chinese University of Hong Kong	Addressing the Burden of Psychotropic Drug Abuse through the Recognition of Seizures and Epilepsy among Abusers	3,671,541.40 Ongoing project. This project aims at addressing clinical needs and treatment of drug abusers who have developed seizure disorder, and disseminating drug prevention messages to students. Project elements include fast-track outpatient clinic and inpatient consultations to drug abusers who suffer from seizures, telephone calls/home visits to family members of the drug abusers for counselling and psychosocial support, and outreach seminars to secondary school students on prevention of drug abuse.
2	Tung Wah Group of Hospitals Integrated Centre on Addiction Prevention and Treatment	Substance Abuse Counselling for People Living with HIV (SACH-IV)	2,872,968.00 Ongoing project. This project aims at improving drug-quitting motivation of HIV-infected drug abusers, promoting inter-disciplinary and cross-sector collaborations to deal with drug abuse patterns among HIV-infected persons and providing preventive education. Project elements include individual and group counselling to HIV-infected drug abusers, their partners and family members, clinical sharing sessions on drug abuse for professionals working with people living with HIV, and preventive education to HIV-infected persons or those who are at risk of HIV infection and drug abuse.
3	Christian New Life Association Limited	天生我材必有用--回饋社會展新生	1,691,200.00 Ongoing project. This project aims at providing vocational training to residents of the drug treatment and rehabilitation centre with a view to enhancing trainees' sense of self-efficacy and facilitating their reintegration into society through providing household repair and maintenance services to low-income families and elderly.
4	Mission Ark Limited	New Life Integrated Model of Career Development Programme	2,211,678.00 Ongoing project. This project aims at equipping residents of Mission Ark Yuen Long Centre with vocational skills and preparing them to reintegrate into society. Project elements include vocation and career development trainings, interest classes, job placement and sharing session.
5	Operation Dawn Ltd.	Live with an Ideal Life	2,792,733.60 Ongoing project. This project aims at equipping male residents of the drug treatment and rehabilitation centre with vocational skills, preventing them from relapse, educating their children on positive values and rebuilding family relationship. Project elements include vocational training and war game for residents, training and psychological support for rehabilitees, workshops and support sessions for residents' children and leisure activities for families.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
6 Hong Kong Lutheran Social Service	Sprouting a New Life Journey: A Holistic Parent Counselling and Support Program for Drug-Abusing Parents	3,483,000.00	Ongoing project. This project aims at serving pregnant drug abusers, drug abusing parents and their children in Kowloon East. Project elements include individual counselling services for drug abusing parents and parents-to-be, healthcare service for female drug abusers and their young children, treatment and support group for drug abusing parents, and training workshop for helping professionals.
7 Evangelical Lutheran Church Social Service - Hong Kong	Operation of Networking Hidden Drug Users	4,122,360.00	Ongoing project. This project aims at linking up existing drug rehabilitation service and cooperating with Substance Abuse Clinics in providing daytime rehabilitation programmes. Project elements include outreach and visits, casework, medical consultation for drug abusers, support groups for family members, recruitment talks, vocational training and orientation in rehabilitation centres.
8 Evangelical Lutheran Church Social Service - Hong Kong	My Love. I Care.	2,382,228.00	Ongoing project. This project aims at enhancing drug abusers' role as parents so as to eliminate their drug-abusing habit and help them abstain from drugs. Project elements include family photo shooting, family camps, workshop on communication and parenting, family counselling, peer support group, community service and assessment service for drug abusers' and rehabilitees' children.
9 Department of Psychiatry, Alice Ho Miu Ling Nethersole Hospital, Tai Po Hospital and North District Hospital	Tap the Hidden, Tap Your Talent 2.0	5,122,100.00	Ongoing project. This project aims at providing assessment, screening, problem identification and treatment to hidden substance abusers and their carers with a view to improving their physical and psychosocial health. Project elements include home visits, professional and comprehensive assessment/screening, psychological and medical treatments, and referrals to counselling centre for psychotropic substance abusers and integrated community centre for mental wellness for hidden substance abusers and their carers.
10 Department of Social Work, The Chinese University of Hong Kong	Enhancing Competence in Anti-drug Work among Practitioners and Students of Social Work and Healthcare Professions: An Integrated Humanistic and Cognitive-Behavioral Training Program with Focus on High-risk Youth and Drug Rehabilitation Service Settings	946,910.00	Ongoing project. This project aims at providing structured anti-drug training to social workers and healthcare professionals through an integrated approach of humanistic and cognitive-behavioural therapy. Project elements include provision of different levels of training to participants on skills in identifying and assessing the needs of drug abusers, motivating and engaging abusers in treatment, and sustaining the growth and development of abusers throughout their rehabilitation.

<u>Approved Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
11 Hong Kong Lutheran Social Service	Project C60 Trauma-Informed Integrative Substance Misuse Treatment and Professional Support	2,198,448.00	Ongoing project. This project incorporates professional training targeting substance misuse problems with the comorbidity of mental illness having source/association with traumatic experience. It adopts a Trauma-Informed Integrative Substance Misuse Treatment Model for drug abusers with traumatic experience. Project elements include training, supervision groups and sharing session for local substance abuse service professionals to deal with trauma and mental illness in substance misuse treatments.
12 Wu Oi Christian Centre	Vocational Training Courses and Aftercare Scheme	675,000.00	Ongoing project. This project aims at enhancing the vocational skills of residents of Wu Oi Christian Tai Mei Tuk Female Training Centre and their sense of self-efficacy, reducing their relapse rates and facilitating their reintegration into society. Project elements include vocational training and aftercare group for rehabilitees.
13 Caritas – Hong Kong	Touchpoint II	3,737,528.00	Ongoing project. This project aims at providing support service to arrested young drug abusers and their peers throughout different stages of legal procedures with a view to raising their awareness of drug abuse, increasing their motivation to quit drugs, and reducing re-offence and relapse. Project elements include court outreach, court hearing rehearsals, relaxation and recreational activities, life-rebuilding rehabilitation plan, individual and family counselling, medical assessment, peer support groups, vocational training and job placement.
14 Caritas – Hong Kong	Pregnant to Nurturing Scheme	2,087,439.00	Ongoing project. This project aims at providing comprehensive services for drug abusing or former drug-abusing mothers and pregnant women and their toddlers. Project elements include psychological assessment and/or counselling service for drug abusers and their family members, relapse-prevention group, parenting skill support group, parenting skill coaching, stress relieving activities, home visits and healthcare service.
15 Caritas – Hong Kong	Lightening Soul, Renewing Life - Psychological Healing Support Services for Ex-drug Abusers and their Family Members	1,777,224.00	Ongoing project. This project aims at enhancing awareness of former drug abusers and their family members on the relationship between past traumatic experience and drug abuse problem, and encouraging them to cope with their traumatic experience so as to prevent relapse in the long run. Project elements include workshops, group counselling and case counselling for drug abusers/ex-drug abusers and their family members with traumatic experience.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
16 Hong Kong Christian Service	CATCH II-Families Support Scheme	4,590,326.00	Ongoing project. This project aims at supporting family members of drug abusers in West Kowloon by promoting self-care awareness as well as physical and psychological health through an integrative body-mind-spirit approach. Through engaging the family members of drug abusers, it aims at enhancing drug abusers' motivation to quit drugs. Project elements include casework, individual and family counselling, family-based activities and self-enhancement workshop.
17 Hong Kong Christian Service	Marvel Imprint	2,848,777.00	Ongoing project. This project aims at serving pregnant and postnatal drug abusers together with their family members in Kowloon West. Project elements include support and counselling service, parenting service and community involvement activities.
18 Tung Wah Group of Hospitals	Precious Journey- A supportive project for parents with drug abuse behaviour	3,702,647.00	Ongoing project. This project aims at providing comprehensive services for drug-abusing pregnant women and mothers together with their family members and children. Project elements include self-care service, childcare skill training and service, parent-child attachment programme and family functioning programme.
19 Barnabas Charitable Service Association Limited	“Equip for New Stage”: Integration of Vocational Training and Relapse Prevention for Rehabilitee’s Recovery Program	1,827,473.00	Ongoing project. This project aims at enhancing vocational skills of rehabilitees and their sense of self-efficacy, reducing their relapse rates and facilitating their reintegration into society. Project elements include vocational training services such as career-oriented assessment, aptitude tests, career and life planning counselling, and relapse-prevention counselling such as relapse crisis assessments.
20 The Boys’ and Girls’ Clubs Association of Hong Kong	“A Better Man Project”	3,012,430.00	Ongoing project. This project aims at providing support to young male drug abusers and rehabilitees aged 21-35 in Kowloon East, motivating them to seek treatment and quit drugs, and preventing inter-generational drug problem. Project elements include outreaching services and counselling services to young male and training workshops to frontline anti-drug social workers.
21 Community Drug Advisory Council	Pink Pal	507,068.00	Ongoing project. This project aims at providing training to frontline anti-drug personnel and tertiary school students in relevant fields to enhance their capability in handling drug abuse cases among the sexual minority population. Project elements include training on latest drug scenes, drug abuse cases among the sexual minority population, counselling skills, drug-related legal knowledge, sharing session by former abuser and visit to local drug rehabilitation and service facilities.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
22 The Society for the Aid and Rehabilitation of Drug Abusers	“Special Care for the Special Mothers” 2.0	2,606,904.00	Ongoing project. This project aims at providing a comprehensive residential drug rehabilitation programme for pregnant rehabilitees. Project elements include medical care, psychosocial counselling, psychological therapy, parenting skill training, aftercare services, family activities, supportive services to family members, sharing by peer counsellors and guided tours for the general public.
23 AIDS Concern Foundation Limited	Project CHANGE: Training for Professional Teams to Enhance Their Sensitivity to MSM and Drug Users	413,536.00	Ongoing project. This project aims at enhancing drug rehabilitation support service workers' and/or health care professionals' knowledge about “Men having sex with Men” (MSM) community and their competency in handling MSM drug abuse cases. Project elements include training workshops and field visits to MSM hot spots and training for former drug-abusing MSM to become peer counsellors.
(b) Preventive Education and Publicity			
24 Hong Kong Sheng Kung Hui Welfare Council Limited	Projection Dance – Youth Positive Development Project	2,149,986.00	Ongoing project. This project aims at disseminating anti-drug messages to young people through projection mapping dancing (投影舞) performance and competition. Project elements include visits to drug treatment centres, professional sharing sessions, multi-media experiential learning, projection mapping, dance competition, school-based roving performance, award presentation ceremony and broadcast of winning performances on social media platforms.
25 Yan Chai Hospital No. 2 Secondary School	抗逆小先锋	53,400.00	Ongoing project. This project aims at providing drug prevention education for primary and secondary school students in Tuen Mun District in order to enhance their knowledge on drug harms. Project elements include day-camps for primary school students and recruiting secondary school students to lead the activities.
26 Life Education Activity Programme	Drug Free Family -- A Preventive Education Programme for Parents	1,816,760.00	Ongoing project. This project aims at strengthening parent-child communication and parenting skills, raising parents' anti-drug awareness, and helping parents to identify drug abuse behaviours at home. Project elements include parenting workshops with anti-drug elements, hosting of social media webpage to disseminate news about drugs and tips on parenting skills, and provision of social platform for parental support and sharing of parenting experience.
27 Evangelical Lutheran Church Social Service - Hong Kong	Detox – Theatresports™ Competition	1,562,963.00	Ongoing project. This project aims at disseminating anti-drug messages to young people via performing art of Theatresports. Project elements include organising Theatresports performances at schools, Theatresports workshops, as well as district-based and territory-wide Theatresports competitions.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
28 1. Shito-Ryu-Karate Do Gc (Gorkha Community) Hong Kong; 2. Hong Kong Integrated Nepalese Society Limited	Reach Beyond Prevention	695,650.00	Ongoing project. This project aims at raising the anti-drug awareness of ethnic Nepalese residents. Project elements include home visits to ethnic minorities, outreach services, family activities, sports training, activities echoing with the United Nations International Day Against Drug Abuse and Illicit Trafficking and anti-drug seminars.
29 Hong Kong Young Leaders Development Association	"Live a Wonderful Life" Series - Microfilm Competition	1,245,740.00	Ongoing project. This project aims at raising anti-drug awareness of young people through micro-film competition. Project elements include anti-drug seminars, experience sharing sessions by rehabilitees, visits to drug treatment services providers, micro-film production workshops and micro-film competitions. Winning micro-films will be shown in various schools.
30 Organiser: Mong Kok Yin Ngai Societies Co-organisers: Mong Kok District Residence Association, Blossom Charity Limited	Say "No" to refrain drug abuse!	672,088.00	Ongoing project. This project aims at raising anti-drug awareness of tertiary school students and residents in Mong Kok District and assisting residents to identify hidden drug abusers by providing training to tertiary school students as volunteers, and organising anti-drug publicity programmes in the district. Tertiary school students will also be invited to take part in anti-drug video shooting competition for the purpose of publicising anti-drug messages in the community.
31 The Hong Kong Edinfotainment Base of Youth Company Limited	Youth Dream – Drug Prevention Project	968,936.00	Ongoing project. This project aims at improving participants' knowledge of drug harms and helping them build up positive values through anti-drug volunteer training, arts training and public performances. Project elements include arts development activities (e.g. dancing, video shooting, singing, and song composition), volunteer training, talent show, online dissemination of anti-drug advertisements and theme song as well as a share platform for practice.
32 The Society of Rehabilitation and Crime Prevention, Hong Kong	Beat Drugs @ Mock Trial	1,654,419.00	Ongoing project. This project aims at raising anti-drug awareness of students by organising "mock trials" of drug-related criminal cases. Project elements include volunteer training for legal professionals, different sectors of the community and parents, school-based anti-drug activities, visit to courts, anti-drug talks for parents and teachers, pre- and post-mock trial interactive workshops, experience sharing sessions by instructors from the legal field and mock trial competitions for secondary schools (including schools for social development).

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
33 Hong Kong Association of Youth Development	"Your Choice" Nano-movie Competition cum "Blazing Spirit" Youth Ambassador Programme	1,464,950.00	Ongoing project. This project aims at providing identification and crisis intervention to hidden drug abusers and their family members, as well as promoting anti-drug messages to high-risk youth and the general public. Project elements include media campaign, screening and identification of hidden drug abusers through online and on-site outreach, intervention to drug abusers and their families including medical services and counselling, making referral to treatment services and experience sharing session for drug rehabilitation field workers.
57 The Boys’ and Girls’ Clubs Association of Hong Kong	1,490,255.60	Project CIA (Combating Intergeneration Addiction)	Ongoing project. This project aims at providing family-oriented services for drug-abusing or rehabilitating parents together with their children and preventive education for high-risk youths. Project elements include relationship rebuilding and counselling support for drug abusing/rehabilitating parents and their children, preventative education for high-risk youths, anti-drug public education through social media and sharing meeting for social workers.

<u>Approved Agency</u>	<u>Approved Grant HK\$</u>	<u>Project</u>	<u>Project Brief and Progress up to 31 March 2018</u>
58 The Boys' and Girls' Clubs Association of Hong Kong	3,414,086.12	Healthy Life Style for LGBT Youths	Ongoing project. This project aims at developing specific drug prevention and treatment programme for the gay community as well as enhancing the capability of frontline workers in working with drug dependent gay youths. Project elements include preventive education through videos and website, physical and online outreach service, drug treatment service through counselling, expressive arts group and psychiatric assessment and treatment or Chinese medicine, and positive lifestyle activities such as sports and fitness courses for former drug-abusing gay youths and high-risk youths. Training workshop would be provided to frontline workers and study be conducted on using creative arts to work with gay men with “Chem-sex” addiction.
59 The Society for the Aid and Rehabilitation of Drug Abusers	3,130,432.00	Act for a Bright Future	Ongoing project. This project aims at providing jobs skills and vocational training to rehabilitees of Au Tau Youth Centre, Adult Female Rehabilitation Centre and Sister Aquinas Memorial Women Treatment Centre, as well as uplifting their sense of self-efficacy and facilitating them to reintegrate into society. Project elements include pre-employment workshop, job skills and vocational training and practice opportunity.
60 The Society for the Aid and Rehabilitation of Drug Abusers	3,882,490.00	“Re-structuring Life · A Better Tomorrow” – Strengthening Inpatient and Aftercare Support for Drug Rehabilitees	Ongoing project. This project aims at providing caring services for drug abusers of ethnic minorities (EMs) and treatment for rehabilitees who are under residential treatment and after discharged, as well as aftercare support to rehabilitees of both Chinese and EMs. Project elements include provision of vocational counselling, short-term job skills training, interest classes, volunteer service and outdoor activities, and support for preparation to work and work adjustment to rehabilitees and their family members.
61 The Society for the Aid and Rehabilitation of Drug Abusers	3,166,002.00	“You got chance” – Multidisciplinary Holistic Outreaching Service for Drug Abusers	Ongoing project. This project aims at setting up a medical-social outreaching team to provide outreaching service to patients of psychiatric hospitals, and providing counselling service to drug abusers and high-risk people such as homeless and unemployed in Yau Tsim Mong, Sham Shui Po, Tsuen Wan and Yuen Long Districts. Project elements include outreaching service, individual and group counselling, and drug treatment assessment and referral services.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
(d) Research			
62 The Hong Kong University of Science and Technology	A multilevel analysis of the demography of drug abuse in Hong Kong	374,928.75	Ongoing project. This project aims at constructing a ‘demography of drug abuse’ in Hong Kong so as to identify the rates of changes of (different types of) drug-abusing behaviour by socio-economic, geographic and demographic characteristics. A multilevel statistical analysis will be made in a bid to derive the main determinants affecting the population of (different types of) drug abuse and how such determinants change over time.
63 Department of Ophthalmology and Visual Sciences, The Chinese University of Hong Kong	Infrared Pupilometry and Eye-tracking as Next-generation Non-Intrusive Means to Identify Subjects Under Influence of Psychoactive Drug and Vision-related Harms	3,536,480.00	Ongoing project. This project aims at creating an age-stratified, gender-matched, race-specific (dark pupil), normative (drug-free) and drug-related database on Infrared Pupilometry and Eye-Tracking parameters.
64 Department of Psychiatry, The Chinese University of Hong Kong	Cocaine Induced Psychosis: a Literature Review and a Prevalence Study in Local Cocaine Abusers	1,059,440.00	Ongoing project. This project aims at studying the characteristics of cocaine abusers in Hong Kong. Phase I of the study aims to identify risk factors, frequency, symptoms, pathological mechanism and treatment of Cocaine Induced Psychosis (CIP) via comprehensive literature review, while Phase II aims to assess CIP and psychotic symptoms in individual cocaine users at community level by means of systematic diagnostic interviews in cross-sectional study; to report on the prevalence and characteristics of and risk factors for CIP; and to examine the prevalence of emotional disorders and anxiety disorders among cocaine users.
65 Centre for Health Behaviours Research, JC School of Public Health and Primary Care, Faculty of Medicine, The Chinese University of Hong Kong	A 3-phase survey, training, and inter-disciplinary combined on-line/offline, theory-based and evidence-based intervention for prevention of psychoactive substance use among adolescents who are case-work clients of social workers (The My Sunny Way Project)	2,791,153.79	Ongoing project. This project aims at studying risk factors that cause high-risk youth to abuse drugs, and formulating appropriate intervention methods based on the study findings.

<u>Agency</u>	<u>Project</u>	<u>Approved Grant HK\$</u>	<u>Project Brief and Progress up to 31 March 2018</u>
66 Department of Social Work and Social Administration, The University of Hong Kong	Formation of program evaluation guidelines towards evidence-based practice of drug treatment and rehabilitation for psychotropic drug abusers in Hong Kong – a mixed method study	1,474,886.50	Ongoing project. This project aims at understanding stakeholders' views on the efficacy of treatment and rehabilitation services in Hong Kong. It aims to consolidate consensus among stakeholders in developing an evaluation framework for evidence-based drug treatment and rehabilitation practices, as well as formulate practical evaluation guidelines, including validation of measurement tools to help conceptualising, planning and commissioning evaluation of treatment services.
	Sub-total	153,795,650.18	
	Total	383,114,707.06	

Note

Active projects refer to projects for which the grants have not been fully disbursed to grantees, or projects which are ongoing.

Annex B
