

What are the different forms of cannabis products?

- Most common form: smoked in roll-up cigarettes
- Other forms: cannabis herbs or cannabinoids may be added to food, drinks, topical products for applying to skin, hair or nails; cannabis extracts; cannabis resin or oil.
- Watch out for words such as "cannabis", "canna", "marijuana", "indica", "sativa", "hemp", "THC" or the image of the cannabis plant to identify cannabis products.
